River Sar > Muíño de Parceiros

A circular trail linking the **Brañas do Sar** area with **Parque Eugenio Granell** (park). Due to its proximity to the city centre throughout the route, you can access the trail from almost any point and leave it at any time.

If you want to extend the route, we recommend Trail 06. River Sar > Bosque do Banquete de Conxo.

We suggest starting at **Colegiata Santa María a Real do Sar**, a 12th-century collegiate church on the banks of the River Sar, which, along with the Cathedral, is the church that best reflects its original Romanesque style. From there we head towards **Ponte do Sar** (bridge) and, without crossing it, we turn right to start our way down, parallel to the river (which is on our left).

When the stonewall ends, at the fork, we should follow the trail on the right, which continues straight on as far as the **Fonte das Brañas de Sar** fountain and, from there, to the **Huertos Urbanos Municipales** (vegetable plots). Continuing under the A Ponte Pedriña roundabout, we enter **Parque Eugenio Granell** (park) and the trail runs parallel to the river as far as **Muíño de Parceiros** (waterwheel). From there, the trail crosses the bridge to return to Parque Eugenio Granell via **Carballeira do Paxonal** (oak grove), with the river now on our left. On reaching the statue of **José Martí** (which is located close to the wooden cafeteria), the trail crosses the bridge and brings us back to the path going under the A Ponte Pedriña roundabout. At the Huertos Urbanos Municipales, the trail turns right, crosses the river and continues along Carreiro de Picaños for around 550m before reaching several houses, where it turns left as far as the stonewall that leads us back to **Ponte do Sar**. Once we reach the bridge, we can turn left to come to **Colegiata Santa María a Real do Sar** again. If we want to extend our walk a little further, we can cross straight ahead and continue for around 900m (one way) to reach the end of this riverside trail at the municipal swimming pool.

- 06. River Sar > Bosque do Banquete de Conxo
- 07. Bosque de Galicia > Cidade da Cultura > Parque do Lago
- 08. Monte Viso [Mythological Trail]

keep in mind

> Suitable clothes and footwear for walking, taking into account weather conditions and the trail's characteristics.

> Riverside trails are usually damp, especially after rainy days, when waterlogged or slippery areas can appear.

> Keep the countryside clean and protect biodiversity.

> Help us to improve. We appreciate your comments, suggestions, or notifications regarding the condition of the trail at sendas@santiagoturismo.com
